

# AMY BOUSAMRA

## SUMMARY

UI Designer and Front-End Developer with 8+ years of experience building and maintaining interactive, accessible web applications across enterprise digital products. Strong foundation in HTML, CSS, JavaScript, Figma, and responsive design, with a track record of rapidly implementing client requests, resolving production issues, and improving usability and consistency at scale. Experienced creating and maintaining design systems, translating Figma specifications into production-ready interfaces, and ensuring WCAG accessibility standards. Currently deepening expertise in React, TypeScript, and modern component-driven architectures. Collaborative, detail-oriented professional with a strong design eye and commitment to clean, maintainable UI code.

## EDUCATION

Bachelor of Science, Web Development

**Full Sail University**, Winter Park, FL  
May 2015

Rigorous, project-based program focused on full-stack web development, UI/UX design principles, and industry-standard tools. Built hands-on experience developing responsive web applications using HTML, CSS, JavaScript, and content management systems. Developed a strong foundation

## SKILLS

- Frontend & UI Development: JavaScript (ES6+), HTML5, CSS3 (Flexbox, Grid, animations), SCSS/Sass, responsive web design, cross-browser compatibility, jQuery, DOM manipulation
- UI Design & Systems: Figma, design systems, component libraries, style guides, wireframing, prototyping, accessibility (WCAG), usability, UX implementation
- APIs & Data: REST, JSON, GraphQL (learning)
- Modern Frameworks (actively developing): React, Next.js, TypeScript — component-based architecture and state management
- Tools & Workflow: Git, Bash scripting, JIRA, AWS, WordPress, PHP, Adobe Creative Suite (Photoshop, Illustrator, Premiere), AI-assisted development

## WORK HISTORY

June 2021 - November 2025

**Travel + Leisure Co - Front-End Web Developer / UI Designer**, Orlando

- Developed and maintained user-facing interfaces for enterprise digital products, focusing on usability, accessibility, and responsive design across devices.
- Translated Figma and design specifications into production-ready UI using HTML, CSS, JavaScript, jQuery, and Bootstrap, ensuring consistency with evolving design system standards.
- Designed and maintained UI component libraries and style guides, contributing to a scalable design system used across multiple enterprise products.

in design-to-code workflows, accessibility standards, and collaborative development practices that directly inform my front-end and UI design work today.

Master of Arts, Directing  
**Humboldt State University**,  
Arcata, CA

June 2001

Graduate-level study in production, directing, and communication — building advanced skills in storytelling, project leadership, and visual media. This background directly shapes a user-centered design approach: understanding how to craft compelling, clear experiences for diverse audiences is at the core of both disciplines.

- Ensured all interfaces met WCAG accessibility standards, incorporating best practices for keyboard navigation, screen reader support, and color contrast.
- Led front-end debugging and maintenance, resolving cross-browser compatibility issues and improving UI consistency across legacy and modern codebases.
- Utilized Git, Bash scripting, and AWS to manage deployments, streamline UI updates, and coordinate production releases across multiple environments.
- Conducted usability testing and incorporated feedback to refine interactive flows, user journeys, and overall product experience.

June 2015 - June 2021

**Stony Point Web Design - Web Designer & Front-End Developer**, Traverse City, MI

- Designed and developed responsive, user-focused web interfaces for a variety of clients using HTML, CSS, JavaScript, and SCSS.
- Built and customized WordPress and PHP-based websites, implementing layout changes, styling updates, and feature enhancements to meet client requirements.
- Translated client goals and design direction into clean, accessible layouts ensuring visual consistency across browsers and devices.
- Collaborated directly with clients to identify requirements, recommend solutions, and deliver updates efficiently.
- Created and edited video and visual assets using Adobe Creative Suite to support cohesive web and marketing experiences.
